

## Young with Ancient Roots

In the fall of 2009, we will celebrate our fourth anniversary. As a young church, we are energized and enthusiastic about the mission that God has us here to fulfill.

While we may be young, we are grounded with ancient roots. We appreciate the diversity of traditions that the church has developed throughout her rich history. In recognition of this, we recite creeds from as early as the fourth century and sing both classic and modern psalms, hymns, and spiritual songs.

## Our Worship

Our weekly worship forms the foundation of our lives. We take worship seriously but do so with joy in a robust manner.

During worship, God meets with us to renew His covenant through five stages:

1. God calls us.
2. God cleanses us.
3. God consecrates us.
4. God communes with us.
5. God commissions us.

Our worship includes singing, prayer, silent meditation, corporate recitations, Scripture readings, preaching, and weekly celebration of the Lord's Supper.

## Our Values

At Christ Covenant, we are in the process of becoming like Jesus by striving towards these characteristics:

We attempt to be **God-centered** in all things. Jesus Christ is the King of the Universe, and everything relates to Him.

We seek to be **authentic**. None of us is perfect, and we shouldn't try to pretend that we are.

We are being **transformed**. Jesus Christ transforms lives through His church. We want to be a part of that.

We desire growth that is **organic**. We are pursuing long-term, genuine spiritual growth.

We are committed to being **communal**. We are attempting to stay connected throughout the week.

We want to live **missionally**. All of us have opportunities each day to impact those around us.

We long to be **merciful**. We seek to share ourselves, our resources, and the love of Jesus with those in need.

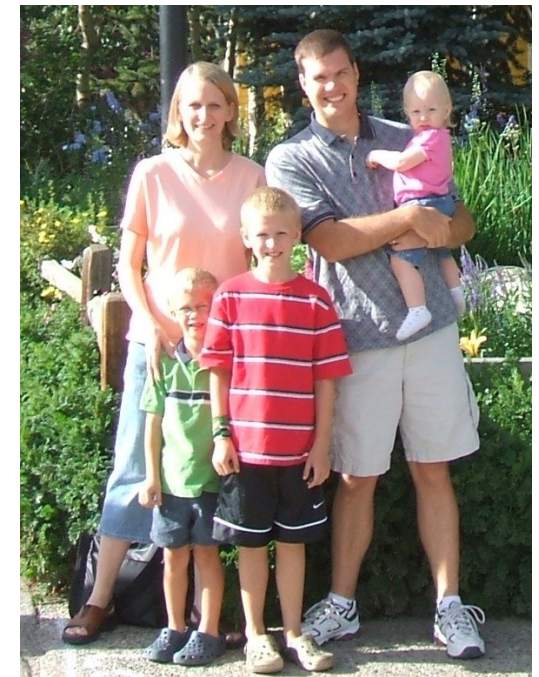

We yearn to be **charitable** towards all Christians, regardless of denomination or affiliation. We rejoice whenever the gospel is preached.

We appreciate our heritage, are excited about what God is doing right now, and are convinced that the best is yet to come!
